

CS 351: Assignment 01

Programming Assignments (90%)

Overview

For this assignment, you will create a small, well-structured informational website in **HTML5** on a topic of your choosing. **You do NOT need to worry about CSS yet.**

In terms of the topic of the website, be creative 😊

No seriously, be creative, as your website idea should be unique across the class. ***Points will be taken off proportional to the number of times I see the same or very similar ideas implemented!***

Website Structure (25%)

- Website should reside in a folder **assign01/**
 - o All HTML pages should be inside this folder
 - o All images → in **assign01/images** folder
 - Images should have descriptive names
- Add a script to **package.json** to run your website:
 - o **"a01": "serve assign01"**
- You should have **at least THREE separate HTML pages** (with appropriate names)
 - o Main page → should be named **index.html**
- Each page must include:
 - o **<!DOCTYPE html>**
 - o **<html lang="en">**
 - o A **<head>** tag with:
 - **<meta charset="UTF-8">**
 - The viewport **<meta>** element we have been using
 - A meaningful title
 - o A **<body>** tag for content

Semantic HTML (25%)

- Good use of semantic elements that reflect actual purpose/meaning of content, such as:
 - o **<header>**, **<nav>**, **<main>**, **<section>** and/or **<article>**, **<footer>**
- Correct use of heading levels

Webpage Content (25%)

- Include meaningful content (not just placeholder text)
 - o HOWEVER, you don't have to overdo it.

- Across the website, include:
 - o Headings
 - o Paragraphs
 - o At least one list (or)
 - o At least one image
 - Should reference LOCALLY-STORED image, NOT external image
 - **All images MUST include appropriate alt text**
 - o At least one additional appropriate structure/content element
 - Table, figure, blockquote, etc.

Navigation and Hyperlinks (15%)

- Provide navigation between all pages in the site
- Include:
 - o At least one **relative/internal link**
 - o At least one **external link**
- Link text should describe the destination rather than using vague text such as "click here"
- All links must work

README (10%)

- In README.md, change "YOUR NAME HERE" to your full name.
- Under the "Websites" section, add a subsection "assign01" briefly describing your website.

Grading

Your OVERALL assignment grade is weighted as follows:

- 90% - Programming
- 10% - README

I reserve the right to take points off for not meeting the specifications in this assignment description.

The following specific penalties (applied to the WHOLE assignment) can be expected:

Problem	Maximum Penalty
Malformed/incorrect code	60
One GIGANTIC commit for whole assignment	30
Instance of repeated idea from another student	2.5 for every repeat
README update missing/incorrect	10
Missing assignment Git branch	5
Failed to merge assignment branch	5
Wrong names for branch, files, etc.	2 for each
Bad commit messages	2 for each
